--

1. Japanese Government and relevant private sector tightly coordinate to tackle the troubles in Fukushima Daiichi and Daini nuclear power plants.

2. In this regard, we notice that some mass media diffuse wrong information lacking factual and rational basis.

The information is available in English (partly in Chinese and Korean as well).

3. We recommend you to collect up-to-date information from reliable websites including the followings, for the situation surrounding the nuclear power plants caused by Tohoku district – off the Pacific Ocean Earthquake is still fluid.
